

## List for correct separation of glass

What does belong into the glass container?

Please put any glass packaging into the glass container – empty and separated by colours. Colours that can't be clearly assigned – such as blue glass – belong into the container for green glass.

- glass bottles  
(e.g. bottles for wine, liquors or juice;  
no de posit bottles)
- preserving jars
- tin cans
- glass perfume bottles
- other glass packaging

The following items do NOT belong into the glass container:

- car glass
- car lamps
- casseroles
- batteries
- lead glass
- flower pots
- flower vases
- „ceran“ hobs
- electric and electronical equipment
- leftovers
- flat glass (wire, mirror, safety glass...)
